

The Neighborhood/Stable Wellness Clinic

We love neighborhood and stable wellness clinics. They are a lot of fun. Everyone benefits from the questions and answers and sometimes there is food! If you'd like our doctors to discuss a particular problem or issue with the group, we'd be happy to do that as well.

To organize a Wellness Clinic, here are the requirements and benefits (besides the fun)

- All horses must be at one location
- Owners are present to get their horse
- 5 or more dentals at one location= NO CALL CHARGE
- 10 or more dentals at one location= \$135.00 ea for examination, sedation and correction
- 10 or more horses for annual vaccines, NO CALL CHARGE.
- Doctors will answer general questions and concerns about your horse.
- If pre-arranged, the doctor will discuss a particular topic with the group.... (Fecal analysis and deworming is popular this year).

Below is an organizational sheet. Get it back to us **3 weeks before your preferred date** and we'll do our best to accommodate your first date.
